MEGHANA B R

Computer Science and Engineering | SoftwaDevelopment | AI/ML
Phone number: +91 9380542398 | Email: meghana10092007@gmail.com | Linkedin: linkedin.com/in/meghana-b-r-17b511386 | GitHub: github.com/meghana10092007-debug | Location: Bengaluru, Karnataka

PROFESSIONAL SUMMARY

Motivated Computer Science and Engineering student with a strong academic background and a passion for technology, software development, and problem-solving. Skilled in programming languages including Python, C, and Java, with knowledge of web technologies such as HTML and CSS. Selected for the Smart India Hackathon(SIH). Interested in developing innovative technology solutions for real-world problems and continuously improving technical skills.

EDUCATION

B.E. : Computer Science and Engineering **2025- 2029**
Sri Venkateshwara College of Engineering, Bangalore
CGPA: Semester 1 – 9.45 | Semester 2 – 9.63

Pre-University (PCMB) **2024-2025**
Percentage: 94.5%

Secondary School (STATE) **2022-2023**
Percentage: 97.12%

TECHNICAL SKILLS

Programming Languages: C Programming, Python, Java
Core: Data structure and Algorithms, Problem Solving
AI & Machine Learning: Artificial Intelligence, Machine Learning, Data Analytics
Web Technologies: HTML, CSS, JavaScript Basics, React.js, Node.js
Tools and Platforms: Visual Studio Code, Git, GitHub, Google Colab

CERTIFICATES

- **Certificate of Achievement - TechA CompTIA Security+(Plus) Certification | Infosys | August 17th 2026**
  https://verify.onwingspan.com
- **Tata – GenAI Powered Data Analytics Job Simulation | Forage | August 15th 2026**
  https://www.theforage.com/simulations/tata/data-visualisation-p5xo/completed
- **EY – Virtual Job Simulation | Forage | August 21st 2026**

PROJECTS

1. BloodConnect – Proactive Blood Supply & Emergency Donor Network

- Developed a proactive blood supply and emergency donor network connecting hospitals, blood banks, donors, colleges, organizations, and blood seekers.
- Implemented a workflow focused on blood stock monitoring, shortage prediction, early warnings, and planned donation drives.
- Designed emergency donor matching based on blood group, donor availability, and proximity, with verified hospital requests and SOS alerts.

2. Marketplace for Unused Products in College Campus

- Developed a digital marketplace platform to enable students to buy, sell, and exchange unused products within the college community.
- Designed the platform to promote sustainable consumption and reduce unnecessary product waste.
- Implemented features for product listings and simplified interaction between buyers and sellers.

3. Smart Waste Management System

- Developed a technology-based solution focused on improving waste collection and management practices.
- Designed the system to support efficient waste monitoring and promote proper waste disposal.
- Focused on using technology to encourage sustainable and environmentally responsible waste management.

ACHIEVEMENTS AND ACTIVITIES

- **Shortlisted for SIH (internal) Smart India Hackathon 2026** Cleared the college-level internal round for Smart India Hackathon 2026.
- **Selected for ISEP** – Integrated Selection Excellence Program Chosen for a program recognizing academic and extracurricular excellence.
